

Classess.com®

Institution Website Navigation and Page Architecture

Primary Institution Audience

[INTERNAL INSTRUCTION — DO NOT DISPLAY]

The Institution homepage must primarily address:

1. Independent schools and educational institutions
2. Multi-campus education groups

NGO, CSR, foundation, government, and district solutions should not receive equal prominence on the primary Institution homepage.

They should appear through:

- A small section near the bottom of the Institution homepage
- Dedicated footer links
- Separate landing pages
- Relevant campaigns and direct URLs

This prevents the main institutional message from becoming too broad while preserving Classess.com®'s ability to support larger education systems.

Institution Navigation

[WEBSITE NAVIGATION]

Platform | Academic Intelligence | Implementation | Trust & Governance | Resources

[PRIMARY BUTTON]

Request a Demo

[SECONDARY LINK]

Sign In

[DEVELOPER NOTE — DO NOT DISPLAY]

Every main navigation item must open a complete standalone page.

The same page must also be accessible through relevant **Read More** buttons placed within the Institution homepage sections.

Do not create separate pages for navigation and homepage buttons if they cover the same subject.

Both must route to the same page URL.

Recommended Institution Homepage Positioning

[WEBSITE HEADING]

Academic intelligence for independent institutions and education groups.

[WEBSITE COPY]

Classess.com® connects curriculum, teaching, assessment, student support, and leadership visibility into one institution-specific academic intelligence platform.

Whether you manage one institution or an education group with multiple campuses, Classess.com® helps create stronger academic alignment, support teachers, understand student learning, and make better institutional decisions.

[PRIMARY BUTTON]

Request a Demo

[SECONDARY BUTTON]

Explore the Platform

[SUPPORTING LINE]

One academic intelligence platform. Configured around the way your institution works.

Institution-Type Selection

[INTERNAL INSTRUCTION — DO NOT DISPLAY]

Do not show four equal options for Independent Institution, Education Group, NGO/CSR, and District at the beginning of the homepage.

Use only two primary selections.

[WEBSITE SELECTOR LABEL]

Choose your institution type:

[SELECTOR OPTION 1]

Independent Institution

[SELECTOR OPTION 1 COPY]

For schools, colleges, universities, coaching centres, and other educational institutions seeking one connected academic system.

[SELECTOR OPTION 2]

Education Group

[SELECTOR OPTION 2 COPY]

For organisations managing multiple institutions, campuses, branches, brands, curricula, or academic teams.

[DEVELOPER NOTE — DO NOT DISPLAY]

The selected option should change relevant examples, dashboard previews, outcomes, and demo-form fields throughout the page.

Navigation Page 1: Platform

Navigation Label

Platform

Recommended URL

/institutions/platform

Page Purpose

Explain the complete Classess.com® institutional platform and how the different academic areas work together.

Primary Question Answered

What does Classess.com® bring together for our institution?

Recommended Page Sections

1. Platform Introduction

Explain Classess.com® as an academic intelligence platform rather than only an LMS, ERP, assessment tool, or content platform.

2. Connected Academic Journey

Show:

Curriculum → Planning → Teaching → Assessment → Feedback → Learning Gaps → Intervention → Progress

3. Stakeholder Experience

Explain the connected experience for:

- Leadership
- Academic coordinators
- Teachers
- Students
- Parents
- Administrative teams

4. Core Academic Capabilities

Explain:

- Curriculum management
- Lesson and academic planning
- Classroom support
- Assessments

- Evaluation and feedback
- Student insights
- Intervention
- Progress monitoring
- Reporting

5. Independent Institution Experience

Show how one institution can configure the platform around its curriculum, hierarchy, policies, terminology, and workflows.

6. Education Group Experience

Show how an education group can establish shared academic standards while retaining campus-level flexibility.

7. Expected Institutional Outcomes

Include:

- Better academic alignment
- Reduced teacher workload
- Earlier identification of learning gaps
- More meaningful assessments
- Stronger leadership visibility
- Better coordination across departments
- Continuous institutional improvement

8. Selective How-It-Works Explanation

Explain only the high-level workflow.

Do not disclose proprietary technical architecture, internal prompts, algorithms, or confidential product logic.

9. Call to Action

Navigation Page 2: Academic Intelligence

Navigation Label

Academic Intelligence

Recommended URL

/institutions/academic-intelligence

Page Purpose

Explain how Classess.com® turns academic activities and data into meaningful insights, recommendations, and actions.

Primary Question Answered

How will Classess.com® help us understand and improve learning?

Recommended Page Sections

1. From Academic Data to Academic Understanding

Explain the difference between storing information and understanding what that information means.

2. Institution-Specific Intelligence

Show how intelligence is grounded in:

- Curriculum
- Institutional policies
- Academic calendar
- Learning outcomes
- Teaching plans
- Assessment patterns
- Student-learning history
- Institutional terminology

3. Student-Learning Visibility

Explain how institutions can understand:

- Concept mastery
- Learning gaps
- Skill gaps
- Repeated misconceptions
- Practice consistency
- Assessment readiness
- Progress after intervention

4. Teacher and Classroom Intelligence

Explain how teachers and academic leaders can understand:

- Curriculum progress
- Lesson completion
- Classroom understanding
- Assessment quality
- Feedback effectiveness
- Intervention requirements

5. Leadership Intelligence

Explain views for:

- Principal
- Academic coordinator
- Head of department
- Campus leadership
- Group management

6. Recommendations and Next Actions

Show that the platform should not merely display dashboards.

It should help answer:

- What requires attention?
- Who requires support?
- Why is the issue occurring?
- What action is recommended?
- Who should take responsibility?
- Did the intervention produce improvement?

7. Agentic Academic Intelligence

Introduce role-based academic agents carefully.

Explain the outcome and purpose without disclosing confidential internal architecture.

8. Expected Outcomes

Include:

- Better decisions
- Faster identification of problems
- More relevant interventions
- Greater learning visibility
- Improved academic coordination
- Stronger institutional knowledge

Navigation Page 3: Implementation

Navigation Label

Implementation

Recommended URL

/institutions/implementation

Page Purpose

Explain how Classess.com® can be introduced, configured, integrated, adopted, and expanded.

Primary Question Answered

How will this work within our existing institution?

Recommended Page Sections

1. Implementation Introduction

Explain that institutions do not need to change everything at once.

2. Institution Discovery

Understand:

- Curriculum
- Academic structure
- Roles
- Policies
- Current systems
- Terminology
- Reporting requirements
- Institutional priorities

3. Institution Blueprint

Explain how Classess.com® is configured around the institution rather than forcing every institution into the same structure.

4. Integration Options

Explain possible connections with:

- ERP
- SIS
- LMS
- Google Classroom
- Microsoft Teams
- Assessment systems

- Timetable systems
- Attendance systems
- Existing academic databases

Only list integrations that are approved, available, or planned.

5. Data Preparation and Migration

Explain the controlled preparation of:

- Student data
- Teacher data
- Classes and sections
- Curriculum
- Subjects
- Academic calendar
- Assessments
- Historical academic records

6. Training and Adoption

Explain:

- Leadership orientation
- Academic-team onboarding
- Teacher training
- Student orientation
- Support resources
- Adoption monitoring

7. Phased Implementation

Show:

Discover → Configure → Integrate → Train → Launch → Review → Scale

8. Independent Institution Rollout

Explain how an individual institution can begin by grade, subject, department, or academic workflow.

9. Education Group Rollout

Explain how a group can begin with selected campuses before expanding across the network.

10. Support and Continuous Improvement

Explain implementation reviews, adoption support, and academic outcome reviews.

11. Call to Action

Navigation Page 4: Trust & Governance

Navigation Label

Trust & Governance

Recommended URL

`/institutions/trust-governance`

Page Purpose

Explain how Classess.com® approaches privacy, permissions, responsible AI, human oversight, and institutional accountability.

Primary Question Answered

Can we trust Classess.com® with our academic environment and student information?

Recommended Page Sections

1. Trust Introduction

Explain that responsible academic intelligence requires governance, not only technology.

2. Institution-Controlled Access

Explain:

- Role-based access
- Permission levels
- Campus-level access
- Department-level access
- Teacher and student access
- Leadership visibility

3. Responsible AI

Explain:

- Human review
- Teacher approval
- Appropriate data use
- Age-sensitive safeguards
- Transparent recommendations
- Limitations of AI-generated outputs

4. Student Data Protection

Explain:

- Data minimisation
- Secure handling
- Anonymisation where appropriate
- Controlled processing
- Access records
- Retention controls where applicable

5. Teacher and Leadership Control

Show that important academic decisions remain under human responsibility.

6. Auditability

Explain how relevant activity, approvals, changes, and interventions can be recorded.

7. Parent and Student Confidence

Explain how responsible governance can build confidence among families and communities.

8. Institutional Policies

Explain how institutional AI policies, approval rules, and data practices can be incorporated into the platform configuration.

9. What We Do Not Disclose Publicly

[INTERNAL INSTRUCTION — DO NOT DISPLAY]

Do not publish:

- Internal security configurations
- Vulnerability information
- Proprietary prompts
- Detailed infrastructure diagrams
- Confidential vendor arrangements
- Internal access procedures
- Sensitive technical architecture

10. Call to Action

Navigation Page 5: Resources

Navigation Label

Resources

Recommended URL

`/institutions/resources`

Page Purpose

Help institution leaders understand, evaluate, adopt, and use Classess.com®.

Primary Question Answered

What information can help us evaluate and implement the platform?

Recommended Resource Categories

Platform Resources

- Platform overview
- Product brochures
- Module summaries
- Academic workflow guides
- Frequently asked questions

Leadership Resources

- Responsible AI guides
- Academic transformation guides
- Digital strategy resources
- Institutional readiness checklists
- Implementation-planning templates

Teacher Resources

- Tutorials
- Teaching templates
- Assessment resources
- Product training
- Professional-development materials

Implementation Resources

- Onboarding guides
- Integration information
- Data-preparation templates
- Rollout checklists
- Training schedules

Evidence and Success

- Case studies
- Institution stories
- Teacher stories
- Student outcomes
- Programme reports
- Research and impact summaries

[INTERNAL INSTRUCTION — DO NOT DISPLAY]

Publish only verified case studies, testimonials, performance statistics, and impact claims.

Calls to Action

- Download Platform Overview
- Watch Institution Tutorial
- Explore Case Studies
- Request a Demo

[BUTTON ROUTE]

`/institutions/resources`

[BUTTON PLACEMENT]

Place near the bottom of the homepage before the final call to action or inside the homepage resources section.

Recommended Institution Homepage Read-More Mapping

[INTERNAL INSTRUCTION — DO NOT DISPLAY]

Use the following mapping so developers do not create duplicate or incorrect pages.

Institution Homepage Section	Button Text	Destination
Connected Academic System	Read More About the Platform	/institutions/platform
Teacher Support and Academic Consistency	Explore the Platform	/institutions/platform
Student Insights and Intervention	Read More About Academic Intelligence	/institutions/academic-intelligence
Leadership Visibility	Explore Academic Intelligence	/institutions/academic-intelligence
Integration and Rollout	Read More About Implementation	/institutions/implementation
Trust, Privacy and Responsible AI	Read More About Trust & Governance	/institutions/trust-governance
Institution Resources	Explore Resources	/institutions/resources

[DEVELOPER NOTE — DO NOT DISPLAY]

Use one small secondary button per relevant homepage section.

Do not add “Read More” to every card.

The button should route to the relevant main navigation page.

Independent Institution Positioning

[WEBSITE HEADING]

One institution. One connected academic system.

[WEBSITE COPY]

Classess.com® helps independent institutions connect curriculum, teaching, assessment, feedback, student support, and leadership visibility within one academic environment.

The platform can be configured according to the institution's curriculum, academic structure, terminology, policies, workflows, and priorities.

[VISIBLE BENEFITS]

- Give teachers better planning and assessment support
- Improve curriculum and learning-outcome alignment
- Identify student-learning gaps earlier
- Coordinate academic interventions
- Strengthen leadership visibility
- Reduce disconnected academic processes
- Build institutional knowledge over time
- Work alongside existing systems where required

[BUTTON]

Explore Classess.com® for Independent Institutions

[BUTTON ROUTE]

</institutions/independent-institutions>

Education Group Positioning

[WEBSITE HEADING]

Shared academic direction. Campus-level flexibility.

[WEBSITE COPY]

Classess.com® helps education groups create consistent academic standards across institutions while allowing each campus to work according to its curriculum, student needs, local context, and leadership structure.

Group leaders receive appropriate network-level visibility, while campus teams retain the control required to manage their academic environment.

[VISIBLE BENEFITS]

- Establish shared academic expectations
- Compare progress across campuses responsibly

- Identify campuses requiring support
- Share effective practices across the group
- Maintain curriculum and campus-level flexibility
- Support group-wide teacher development
- Track interventions across institutions
- Build group-level academic intelligence
- Expand without losing local relevance

[BUTTON]

Explore Classess.com® for Education Groups

[BUTTON ROUTE]

</institutions/education-groups>

NGO, CSR and District Placement

[INTERNAL INSTRUCTION — DO NOT DISPLAY]

Do not include NGO, CSR, and district solutions as equal homepage audience categories.

Include one compact section near the bottom of the Institution homepage.

[WEBSITE EYEBROW]

For education systems beyond a single institution

[WEBSITE HEADING]

Supporting education programmes and public learning systems.

[WEBSITE COPY]

Classess.com® can also support NGOs, CSR-led education initiatives, foundations, districts, and education networks that require programme visibility, academic coordination, and learning-outcome monitoring across multiple locations.

[SMALL LINK 1]

Explore NGO and CSR Solutions

[LINK ROUTE]

/solutions/ngo-csr

[SMALL LINK 2]

Explore District and Public Education Solutions

[LINK ROUTE]

/solutions/districts

[DEVELOPER NOTE — DO NOT DISPLAY]

This should be a compact secondary section.

Do not give it the same visual weight as the Independent Institution or Education Group sections.

Do not use a large dashboard animation here.

A simple two-card layout is sufficient.

Footer Structure

[FOOTER CATEGORY]

Institutions

[FOOTER LINKS]

- Independent Institutions
- Education Groups
- Platform
- Academic Intelligence
- Implementation
- Trust & Governance
- Resources

[FOOTER CATEGORY]

Public and Social Impact

[FOOTER LINKS]

- NGO and CSR Education

- Foundations
- District Education
- Government Programmes
- Community Learning Initiatives

[DEVELOPER NOTE — DO NOT DISPLAY]

The Public and Social Impact category should remain separate from the main Institution navigation.

This provides discoverability without diluting the primary Institution homepage message.

Final Recommendation

[INTERNAL INSTRUCTION — DO NOT DISPLAY]

The Institution homepage should primarily communicate:

1. Classess.com® is built for serious educational institutions.
2. It supports both independent institutions and education groups.
3. It improves academic systems—not only administration.
4. It can work with existing institutional technology.
5. It provides responsible, institution-controlled academic intelligence.
6. It can scale to NGO, CSR, and district contexts, but those are separate solution journeys.

Do not make the homepage attempt to sell to every education stakeholder equally.
