Website Content and Media Placement Document

Document Purpose

[INTERNAL INSTRUCTION — DO NOT DISPLAY]

This document is intended for:

- Website developers
- UI/UX designers
- Frontend interns
- Content implementation teams
- SEO teams
- Media integration teams

It specifies:

1. Website content
2. Content hierarchy
3. Calls to action
4. Media placement
5. Media reference IDs
6. Developer implementation requirements

All text written inside square brackets is an internal instruction and must not appear on the live website.

The final media assets will be supplied separately using the media IDs mentioned in this document.

Teacher-Specific Navigation

[SECTION TYPE — DO NOT DISPLAY]

Display this navigation after the visitor selects:

I am a Teacher

[WEBSITE NAVIGATION]

How It Helps | Plan & Create | Assess & Support | Tutorials | Sign In

[PRIMARY NAVIGATION BUTTON]

Start as a Teacher

[ROLE SWITCHER]

Student | Teacher | Institution

[DEVELOPER IMPLEMENTATION NOTE — DO NOT DISPLAY]

The role switcher must remain visible in the header.

When the visitor changes role, the navigation, homepage content, calls to action, and media must change.

Section 1: Teacher Hero

[SECTION PURPOSE — DO NOT DISPLAY]

Communicate the primary teacher outcome immediately: less repetitive work and more meaningful teaching time.

[WEBSITE HEADING]

Spend less time managing work. Spend more time improving learning.

[WEBSITE COPY]

Classess.com® helps teachers plan lessons, create academic resources, assess student work, provide meaningful feedback, and understand who needs support—all from one connected academic workspace.

Use it independently or through your institution.

[PRIMARY BUTTON]

Start as a Teacher

[SECONDARY BUTTON]

See How It Works

[SUPPORTING LINE]

AI handles repetitive academic work while the teacher remains in control.

[MEDIA PLACEMENT — DO NOT DISPLAY]

Media ID: **TEA-HOME-M01**

Recommended media type: **Short looping teacher-workspace animation**

Alternative media type: **Static teacher dashboard preview**

Placement: Right side of the hero section on desktop and below the copy on mobile.

The media should show a teacher's day being simplified into four clear priorities:

- Today's class
- Lesson preparation
- Student work requiring review
- Students needing support

The developer must create a responsive media container supporting:

- Video
- Static poster image
- Image fallback
- Reduced-motion version
- Mobile layout
- Play and pause controls where required

[DEVELOPER PLACEHOLDER TEXT — DO NOT DISPLAY]

Media TEA-HOME-M01 will be inserted here.

Section 2: A Clearer Teaching Workflow

[SECTION PURPOSE — DO NOT DISPLAY]

Show how Classess.com® connects the teacher's academic work before, during, and after the class.

[WEBSITE HEADING]

One connected journey—from planning to student progress.

[WEBSITE COPY]

Teaching should not require moving between disconnected documents, applications, spreadsheets, and reports.

Classess.com® connects the complete teaching cycle so that every activity contributes to a clearer understanding of student learning.

[VISIBLE TEACHING JOURNEY]

Plan → Teach → Assess → Understand → Support → Improve

[CONTENT CARD 1 TITLE]

Prepare with clarity

[CONTENT CARD 1 COPY]

Turn curriculum requirements and learning outcomes into structured lessons, activities, resources, and assessments.

[CONTENT CARD 2 TITLE]

Respond to learning

[CONTENT CARD 2 COPY]

Use student participation, practice, and assessment evidence to understand what is working and what needs attention.

[CONTENT CARD 3 TITLE]

Improve continuously

[CONTENT CARD 3 COPY]

Provide feedback, assign appropriate support, and review whether students have improved after intervention.

[MEDIA PLACEMENT — DO NOT DISPLAY]

Media ID: **TEA-HOME-M02**

Recommended media type: **Scroll-based teaching-cycle animation**

Alternative media type: **Six-step illustrated workflow**

Placement: Between the introductory copy and the three outcome cards.

Desktop layout: Horizontal journey.

Mobile layout: Vertical journey.

The media should activate as the visitor scrolls into the section.

[DEVELOPER PLACEHOLDER TEXT — DO NOT DISPLAY]

Media TEA-HOME-M02 will be inserted here.

Section 3: Planning and Preparation

[SECTION PURPOSE — DO NOT DISPLAY]

Show how teachers can prepare high-quality academic work faster without reducing teacher judgement.

[WEBSITE HEADING]

Begin every class with greater clarity.

[WEBSITE COPY]

Classess.com® helps teachers move from curriculum requirements to classroom-ready learning experiences without starting from a blank page.

Create, review, and adapt academic material according to the subject, grade, topic, learning outcome, student level, and institutional requirements.

[VISIBLE BENEFIT POINTS]

- Prepare lessons and session plans faster
- Align teaching with curriculum and learning outcomes
- Create classroom activities and supporting resources
- Develop assignments, worksheets, and discussion prompts
- Adapt material for different student needs
- Reuse and improve previously created academic work

[WEBSITE HIGHLIGHT]

The platform prepares the first draft. The teacher shapes the final learning experience.

[BUTTON]

Explore Planning Tools

[MEDIA PLACEMENT — DO NOT DISPLAY]

Media ID: **TEA-HOME-M03**

Recommended media type: **Interactive lesson-planning demonstration**

Alternative media type: **Short product-interface video**

Placement: Beside the website copy.

The media should show:

1. Teacher selects grade, subject, topic, and learning outcome
2. Classess.com® creates a structured lesson draft
3. Teacher reviews and edits it
4. Teacher approves the final version
5. The lesson is ready for classroom use

The developer should provide space for a tabbed demonstration showing:

- Curriculum Input
- AI-Generated Draft
- Teacher Review
- Final Lesson

Do not represent AI-generated content as automatically published.

[DEVELOPER PLACEHOLDER TEXT — DO NOT DISPLAY]

Media TEA-HOME-M03 will be inserted here.

Section 4: Classroom Understanding

[SECTION PURPOSE — DO NOT DISPLAY]

Show how teachers gain better visibility into student understanding during and immediately after teaching.

[WEBSITE HEADING]

Know whether students are learning—not just whether the lesson was completed.

[WEBSITE COPY]

Classess.com® helps teachers collect useful learning evidence through classroom questions, short checks, polls, quizzes, activities, assignments, and student responses.

Instead of waiting until the final examination, teachers can identify confusion while there is still time to act.

[CONTENT CARD 1 TITLE]

See who is participating

[CONTENT CARD 1 COPY]

Understand which students are actively engaging and which students may require encouragement or follow-up.

[CONTENT CARD 2 TITLE]

Identify misunderstanding early

[CONTENT CARD 2 COPY]

Recognise concepts that need to be explained again before the class moves forward.

[CONTENT CARD 3 TITLE]

Adjust the next lesson

[CONTENT CARD 3 COPY]

Use real learning evidence to decide whether to continue, revise, differentiate, or provide additional support.

[HIGHLIGHT LINE]

Completion tells you what was taught. Evidence tells you what was learned.

[MEDIA PLACEMENT — DO NOT DISPLAY]

Media ID: **TEA-HOME-M04**

Recommended media type: **Live classroom insight animation**

Alternative media type: **Teacher mission-control dashboard image**

Placement: Between the section introduction and outcome cards.

The media should show:

- One concept being taught
- Student response indicators
- Students who understood
- Students who are uncertain
- Recommended teacher action

Avoid showing student surveillance or intrusive monitoring.

[DEVELOPER PLACEHOLDER TEXT — DO NOT DISPLAY]

Media TEA-HOME-M04 will be inserted here.

Section 5: Assessment and Feedback

[SECTION PURPOSE — DO NOT DISPLAY]

Show how Classess.com® reduces assessment workload while improving the quality of feedback.

[WEBSITE HEADING]

Move from marking answers to understanding learning.

[WEBSITE COPY]

Classess.com® helps teachers create meaningful assessments, review student responses, provide structured feedback, and understand the concepts and skills behind the marks.

[VISIBLE BENEFIT POINTS]

- Create curriculum-aligned assessments
- Use appropriate question types and difficulty levels
- Apply rubrics and marking schemes consistently
- Review attempted and unattempted questions
- Provide written, structured, or voice feedback
- Identify common mistakes across the class
- Recommend corrective practice and revision

[WEBSITE SUBHEADING]

Give feedback students can act on.

[WEBSITE COPY]

A score tells students how they performed. Good feedback helps them understand what to improve and what to do next.

[VISIBLE FEEDBACK EXAMPLE]

You understood the concept.

You need more support applying it to unfamiliar problems.

Next step: Complete the recommended application activity.

[HIGHLIGHT LINE]

Classess.com® helps teachers measure the skills behind the marks.

[BUTTON]

Explore Assessment and Feedback

[MEDIA PLACEMENT — DO NOT DISPLAY]

Media ID: **TEA-HOME-M05**

Recommended media type: **Assessment-to-feedback product animation**

Alternative media type: **Two connected interface images**

Placement: One media area covering both assessment and feedback.

The media should demonstrate:

1. Teacher creates or selects an assessment
2. Student responses are reviewed
3. A recurring misconception is identified
4. Teacher reviews suggested feedback
5. Teacher approves or edits the feedback
6. Corrective activity is assigned

The developer should support either one continuous media sequence or two connected panels.

[DEVELOPER PLACEHOLDER TEXT — DO NOT DISPLAY]

Media TEA-HOME-M05 will be inserted here.

Section 6: Student Insights and Intervention

[SECTION PURPOSE — DO NOT DISPLAY]

Show how teachers can identify who needs support, understand why, and take appropriate action.

[WEBSITE HEADING]

See who needs help—and understand why.

[WEBSITE COPY]

Classess.com® brings together learning, practice, assessment, participation, and feedback evidence so teachers can recognise student needs earlier.

[WEBSITE SUBHEADING]

A clearer view of every learner

[INSIGHT CARD 1 TITLE]

Students who did not attempt

[INSIGHT CARD 1 COPY]

Identify students who may need encouragement, clarification, additional time, or personal follow-up.

[INSIGHT CARD 2 TITLE]

Students who attempted but struggled

[INSIGHT CARD 2 COPY]

Understand the concepts, question types, or skills causing difficulty.

[INSIGHT CARD 3 TITLE]

Students making repeated mistakes

[INSIGHT CARD 3 COPY]

Recognise patterns that may require reteaching, targeted practice, or a different explanation.

[INSIGHT CARD 4 TITLE]

Students ready to move ahead

[INSIGHT CARD 4 COPY]

Provide extension work and appropriate challenges for students who have demonstrated mastery.

[WEBSITE SUBHEADING]

Turn insight into action

[WEBSITE COPY]

Teachers can assign revision, practice, remedial learning, extension activities, or personal feedback based on the student's actual need.

[VISIBLE INTERVENTION EXAMPLE]

Observed: Student understands definitions but struggles with application.

Recommended support: Worked example followed by guided practice.

Follow-up: Reassess after completion.

[HIGHLIGHT LINE]

Every student should be seen, supported, and learning at their best.

[BUTTON]

[View Sample Student Insights](#)

[MEDIA PLACEMENT — DO NOT DISPLAY]

Media ID: **TEA-HOME-M06**

Recommended media type: **Student-insight-to-intervention animation**

Alternative media type: **Interactive class insight dashboard**

Placement: Beside the "Turn insight into action" content.

The media should show:

- Student need
- Reason for difficulty
- Recommended intervention
- Teacher-selected action
- Improvement check

Avoid using a large table with many student names.

Use a small number of dummy student profiles.

[DEVELOPER PLACEHOLDER TEXT — DO NOT DISPLAY]

Media TEA-HOME-M06 will be inserted here.

Section 7: Teacher-Controlled AI

[SECTION PURPOSE — DO NOT DISPLAY]

Build teacher confidence by showing that AI supports professional judgement rather than replacing it.

[WEBSITE HEADING]

AI supports the teacher. The teacher remains in control.

[WEBSITE COPY]

Classess.com® uses academic context to help teachers plan, create, assess, analyse, and respond more efficiently.

Every AI-supported output can be reviewed, edited, approved, or rejected by the teacher before it reaches students.

[VISIBLE PRINCIPLES]

- Teacher approval before publishing
- Curriculum and learning-outcome alignment
- Institution-specific context
- Editable academic content
- Transparent recommendations
- Responsible use of student data
- Clear roles and permissions

[WEBSITE COPY]

AI should reduce repetitive work without reducing teacher responsibility, judgement, creativity, or human connection.

[HIGHLIGHT LINE]

Helping teachers do what they do best—while AI and technology do the rest.

[BUTTON]

See Responsible AI in Action

[MEDIA PLACEMENT — DO NOT DISPLAY]

Media ID: **TEA-HOME-M07**

Recommended media type: **Teacher approval workflow animation**

Alternative media type: **Interactive review-and-approve interface**

Placement: Beside the section content.

The media should show:

1. AI creates a suggested academic output
2. Teacher reviews the output
3. Teacher edits a section
4. Teacher approves it
5. The approved content becomes available to students

The approval step must be clearly visible.

[DEVELOPER PLACEHOLDER TEXT — DO NOT DISPLAY]

Media TEA-HOME-M07 will be inserted here.

Section 8: Final Call to Action

[SECTION PURPOSE — DO NOT DISPLAY]

Conclude with a clear teacher-focused invitation.

[WEBSITE HEADING]

Better teaching begins with better academic support.

[WEBSITE COPY]

Plan with clarity. Teach with better context. Assess meaningfully. Understand student needs. Provide support that leads to progress.

[PRIMARY BUTTON]

Start as a Teacher

[SECONDARY BUTTON]

Watch Teacher Tutorial

[CLOSING LINE]

Less repetitive work. More meaningful teaching.

[MEDIA PLACEMENT — DO NOT DISPLAY]

Media ID: **TEA-HOME-M08**

Recommended media type: **Subtle branded background animation**

Alternative media type: **Static branded teacher illustration**

Placement: Background or side element in the final call-to-action section.

The visual should remain subtle and must not distract from the heading or buttons.

[DEVELOPER PLACEHOLDER TEXT — DO NOT DISPLAY]

Media TEA-HOME-M08 will be inserted here.

Section 9: Frequently Asked Questions

[SECTION PURPOSE — DO NOT DISPLAY]

Answer common teacher questions after the final call to action.

[WEBSITE HEADING]

Frequently Asked Questions

[DEVELOPER IMPLEMENTATION NOTE — DO NOT DISPLAY]

Use an accordion layout.

Display six questions initially.

Additional questions should appear after selecting:

View More Questions

No major image or video is required.

[FAQ QUESTION]

Can I use Classess.com® independently as a teacher?

[FAQ ANSWER]

Yes. Teachers can create an independent account and use available planning, content, assessment, feedback, and student-support tools without waiting for an institution to adopt the platform.

[FAQ QUESTION]

Can I use Classess.com® if my institution already has an LMS or ERP?

[FAQ ANSWER]

Yes. Classess.com® is designed to work as an academic intelligence layer and may connect with existing learning, academic, and institutional systems where appropriate integrations are available.

[FAQ QUESTION]

Will AI-generated content be published automatically?

[FAQ ANSWER]

No. Teachers should be able to review, edit, approve, or reject AI-supported academic content before it is assigned or published to students.

[FAQ QUESTION]

Can the platform align content with my curriculum?

[FAQ ANSWER]

Yes. Academic outputs can be structured according to curriculum, grade, subject, topic, learning outcome, assessment requirement, and institutional context.

[FAQ QUESTION]

Can Classess.com® help reduce assessment and grading work?

[FAQ ANSWER]

Yes. It can support assessment creation, rubric use, response review, structured feedback, common-error identification, and performance analysis. Teacher oversight remains important, particularly for subjective and high-stakes evaluation.

[FAQ QUESTION]

How does Classess.com® help me support struggling students?

[FAQ ANSWER]

The platform helps identify unattempted work, repeated mistakes, concept gaps, skill difficulties, inconsistent participation, and areas requiring revision. Teachers can then assign targeted learning, practice, feedback, or intervention.

[HIDDEN FAQ QUESTION]

Does Classess.com® replace teachers?

[HIDDEN FAQ ANSWER]

No. It is designed to support teachers by reducing repetitive work and improving academic visibility. Professional judgement, human relationships, classroom leadership, and teacher responsibility remain central.

[HIDDEN FAQ QUESTION]

Can I provide voice feedback?

[HIDDEN FAQ ANSWER]

Where enabled, teachers may provide voice, written, structured, or rubric-based feedback according to the activity and institutional requirements.

[HIDDEN FAQ QUESTION]

Can I monitor whether an intervention helped?

[HIDDEN FAQ ANSWER]

Yes. Teachers can review subsequent learning and assessment evidence to understand whether the student improved after revision, practice, reteaching, or other support.

[HIDDEN FAQ QUESTION]

Is student information protected?

[HIDDEN FAQ ANSWER]

Classess.com® is designed around responsible AI, role-based permissions, secure data handling, approval workflows, and appropriate privacy controls.

General Developer Instructions

[INTERNAL INSTRUCTION — DO NOT DISPLAY]

1. Do not display any text written inside square brackets.
2. Maintain all section numbers and media IDs.
3. Create media placeholders before final media is delivered.
4. Do not permanently replace product media with unrelated stock images.
5. Every video must include a poster image.
6. Every animation must include a reduced-motion fallback.
7. Every media asset must include accessibility text.
8. Videos must not autoplay with sound.
9. Written content must remain accessible if media fails to load.

10. Optimise media for desktop, tablet, and mobile.
11. Lazy-load all media below the first visible screen.
12. Do not permanently embed important website copy inside an image.
13. Use only dummy teacher and student information in sample interfaces.
14. Do not show real academic data without written permission.
15. Maintain consistent media IDs across development, design, review, and deployment.
